WELCOME TO BERMONDSEY PLACE

Inspired by its rich industrial heritage and vibrant, creative community, Bermondsey Place is redefining the future of SE1. Surrounded by green spaces, yet just minutes to the City, Bermondsey Place brings the luxury Berkeley lifestyle to an exciting South London neighbourhood, at the beginning of a journey of tremendous change.

IT ALL STARTS HERE...

BURGESS PARK ON YOUR DOORSTEP

Burgess Park is the largest park in London SE1, providing diverse green spaces and a peaceful escape in the heart of the city. Covering over 140 acres, or 453 Olympic-sized swimming pools, the park features a world garden with Oriental, Mediterranean, African & Caribbean styles, as well as a scenic fishing lake, tennis courts, a cricket pitch, a BMX track, and several listed buildings.

SE1, ZONE 2

This postcode is renowned for its cultural landmarks, such as the Tate Modern, Shakespeare's Globe, and The Shard, alongside a thriving scene of bars, restaurants, and markets, including the world-famous Borough Market. With its central location and energetic atmosphere, SE1 is the perfect spot for those who want to experience the best of London living.

OLD KENT ROAD REGENERATION

Over the coming years, it is proposed that circa £10 billion will be invested in Old Kent Road.* This will bring thousands of new jobs, homes, and thriving communities. Bermondsey Place is at the forefront of this exciting change and will set the standard for the area's bright future. It all starts here.

PROPOSED BAKERLOO LINE EXTENSION

The proposed Bakerloo Line extension is London's next big Tube infrastructure project and will bring a new station entrance right to your doorstep, significantly enhancing connectivity.

PROPOSED BAKERLOO LINE EXTENSION

Central to the regeneration of Old Kent Road is the proposed extension of the Bakerloo line, from Elephant & Castle to Lewisham, which would see two new stations being built adjacent to Bermondsey Place, Burgess Park, and Old Kent Road.

It is expected that an extension of the line could create at least 10,000 new jobs, as well as unlock 20,000 new homes on the Old Kent Road.

B

A VIBRANT COMMUNITY IN THE MAKING

Phase one will create the beating heart of Bermondsey Place, with three stunning residential buildings in a prime position along the linear park and overlooking the exciting central square.

- ① The Art Mill
- ② Podium Gardens
- ③ The Art House
- ④ Landscaped Garden
- ⑤ Children's Play Area
- ⑥ Supermarket Parking

THE ARCHITECTS

Rolfe Judd have created a vision for Bermondsey Place that will reshape the future of SE1, delivering stunning new homes alongside exciting new enterprise opportunities and fantastic public spaces for the whole community to enjoy.

Euan MacGillivray
BA(Arch) DipArch ARB RIBA
Director

Rolfe Judd

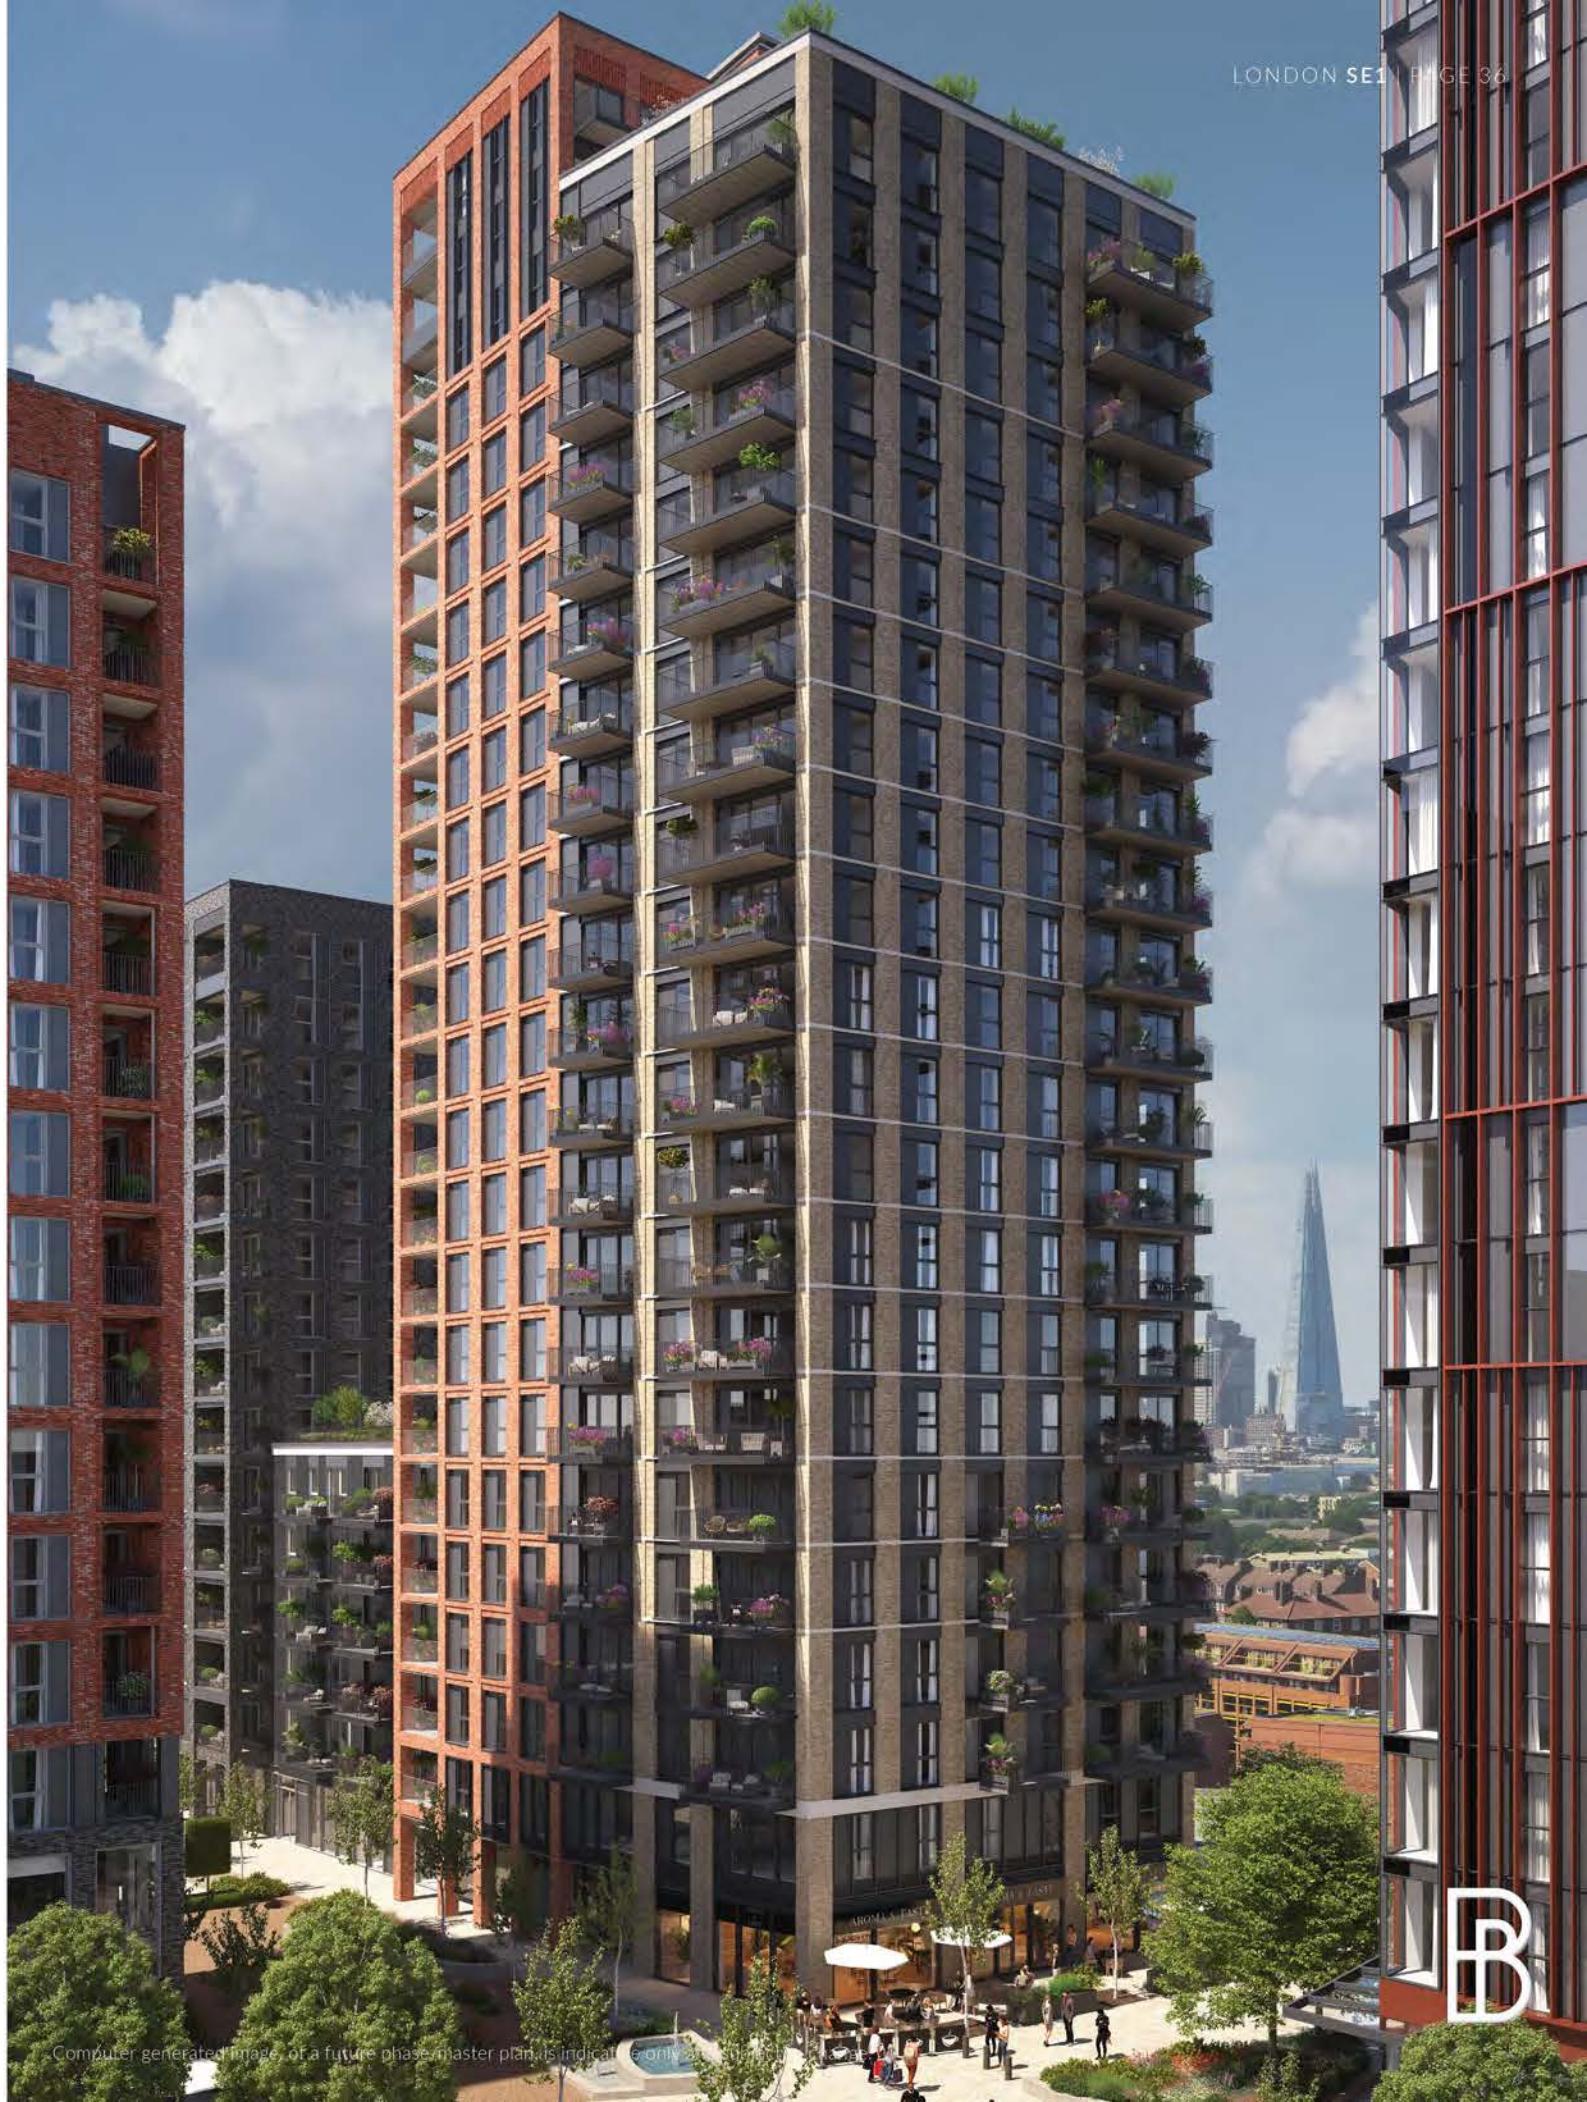

Three key objectives are at the core of Rolfe Judd's vision.

Firstly to build a cohesive, vibrant and enjoyable place to live by creating a neighbourhood full of interesting places to see and visit; a place that tells the story of this important part of London.

Bermondsey Place will also re-establish connections, creating new green routes

and streets that link between existing public spaces, as well as providing connection across neighbourhoods.

And finally, Bermondsey Place will create a distinct new neighbourhood in central London that will revive this area back into a thriving and sustainable community; somewhere that's integral to London but has its own authentic character that's distinct to its historic setting.

THE LANDSCAPE ARCHITECTS

A Green Network Connecting Communities

Our vision is to create a seamless green walk connecting Burgess Park to the development, offering a naturalistic, riverside-inspired environment. The landscape design symbolizes the canal and river, with meandering paths evoking the fluidity and tranquillity of these historic waterways.

Play Spaces that Inspire and Engage

Our design integrates play spaces that entertain and inspire, with water-themed elements like Lenior structures, playable pebbles, and riverside plantings encouraging imaginative exploration. A forest-themed play area to the west creates an urban oasis, connecting to the green spaces of Burgess Park and Surrey Linear Canal Park, fostering well-being and embracing the concept of "Shinrinyoku" or forest bathing.

Bermondsey Place: A Celebration of History and Well-being in Southwark

At Bermondsey Place in Southwark, London, our landscape design is inspired by the area's rich history and vibrant culture. Phase 1, featuring play spaces, a podium garden, and roof terraces, pays homage to the iconic Grand Surrey Canal and River Thames, celebrating the waterways that shaped the region's heritage.

Roof Terraces: Private Sanctuaries with a Sense of Community

The roof terraces at Bermondsey Place cater to residents' diverse needs, offering private retreats and communal spaces. The Art Mill and Art House feature organic shapes reflecting the landscape's natural flow. Each terrace includes seating, small play zones, and naturalistic planting with trees and shrubs, creating serene spaces for relaxation, socializing, and connecting with nature.

"By combining elements of history, nature, and community, we aim to provide an exceptional living experience where history and contemporary living blend seamlessly."

RESIDENTS' FACILITIES FOR ELEVATED LIVING

The facilities at Bermondsey Place have been carefully curated to respond to the needs of a modern lifestyle. This is not just a home where you live, it's a home where you live well. Residents can enjoy facilities such as a concierge, gym, co-working space, podium gardens & sky gardens.

GYM

A residents' private gym featuring large windows that allow natural light to flood the space, creating a serene atmosphere enhanced by natural materials that seamlessly connect the indoors with the outdoors. This harmonious and inviting environment provides an ideal setting for maintaining your health and embracing a healthy lifestyle.

RESIDENTS' LOUNGE & CO-WORKING SPACE

A sophisticated extension of the home, this space allows flexible and multifunctional use that allows you to be social, collaborate and work. A hub for creativity and every day modern living.

RESIDENTS SKY GARDENS & PODIUM GARDEN

The outdoor spaces at Bermondsey Place have been beautifully designed to create areas where residents can relax, feel inspired and connect with the landscape.

Located on the 13th and 22nd floors, the magnificent residents' only Sky Gardens provide ample rooftop space to unwind with friends or connect with new neighbours, whilst enjoying breath-taking panoramic views of the London skyline.

The 6th floor residents' only Podium Garden is located between The Art Mill and The Art House and offers relaxing seating areas, a herb garden and seasonal planting, as well as stunning views towards The Shard and The City of London.

BOUTIQUE LIVING

Bathed in light from floor-to-ceiling windows, each home is meticulously designed to maximise space, light and views

INDUSTRIAL CHIC

The interiors at Bermondsey Place boast modernist urban design, combining the innovative creativity of East London with luxury living.

CHALK

Chalk is the epitome of understated luxury, offering a serene and refined aesthetic for those who value simplicity. This lighter specification radiates calmness and sophistication, blending soft hues and natural textures to create a tranquil environment. Chalk transforms any space into a peaceful retreat, where elegance and comfort coexist effortlessly.

Computer generated image is indicative only and subject to change.

Computer generated image is indicative only and subject to change. Pendant light not included in specification.

CLAY

This darker specification introduces depth and drama, offering a sophisticated, yet inviting atmosphere. With its artful blend of textures and dynamic contrasts, Clay brings a unique flair to any interior, making it the perfect choice for those who appreciate daring design with a sense of warmth and refinement. Each element is crafted to elevate the space, creating a striking and memorable environment.

SUSTAINABILITY

This is how we are ensuring sustainability at Bermondsey Place

PEOPLE, PLANET, PROSPERITY

Sustainability is fundamental to Berkeley's ethos. In simple terms, we want to ensure the long-term health, wellbeing and prosperity of people and the planet. There are a range of ways we are managing and minimising the environmental impact of our operations and delivery of homes and communities. These are the initiatives we have implemented at Bermondsey Place.

NATURE AND BIODIVERSITY

Parkland, trees, flowers, green roofs, ponds, hedges, gardens – these are the fundamentals of a thriving natural environment that can be enjoyed by everyone, even in the heart of the city. They are all part of our commitment to net biodiversity gain on our developments. Within and around Bermondsey Place, we have created natural habitats that encourage wildlife to flourish. We are working with Fabrik to engage residents in the natural landscapes that we have created.

WASTE AND RECYCLING

We actively encourage all residents to reduce their waste wherever possible. In addition to external recycling bins, we provide integrated recycling bins in kitchens to make it easier to separate and recycle waste.

NOISE REDUCTION

We can't eliminate noise, but we consider the impact of noise in the design of our homes. We consider external noise, such as from nearby roads, and internal noise including the transfer between rooms and floors.

We incorporate measures to reduce the different types of noise wherever possible to create a quieter environment.

CLEAN AIR

It is hard to avoid polluted air, particularly in our cities. Throughout Bermondsey Place we have planted trees, shrubs and flower beds to help create a cleaner air environment. Within our homes we provide mechanical ventilation to filter the internal air.

WATER EFFICIENCY

Our homes are designed to high water efficiency standards and are fitted with dual flush WCs, and low-flow taps and showerheads which use less water without compromising convenience and comfort. We also suggest simple steps to reduce water consumption, such as not leaving taps running unnecessarily.

ENERGY EFFICIENCY

Efficient use of electricity helps lower fuel bills and reduces carbon emissions. Our homes have been designed to use less energy than a standard home. They have enhanced levels of thermal insulation and air-tightness, and have been fitted with mechanical ventilation units with heat recovery (MVHR). All lighting is low energy and kitchen appliances have low energy efficient ratings.

SUSTAINABLE TRANSPORT

Zone 2 Bermondsey Place is well located for a range of sustainable transport options. South Bermondsey train station is minutes away, with quick and regular trains to London Bridge. We also provide secure cycle spaces, at least one space for every home to encourage the use of sustainable methods of transport, to help reduce air pollution around the development and the wider area. These active methods of transport also help encourage healthier lifestyles.

STEWARDSHIP

Maintaining our communal open spaces and facilities in perpetuity is an important benefit to the whole community. We work with managing agents and residents to ensure the development remains in pristine condition.

FUTURE-PROOF DESIGN

From the early stages of design, we assess how our homes will stand up to the future effects of climate change, such as how they will be affected by higher summer temperatures, periods of drought, or more extreme rainfall. We are constantly researching how we can ensure our homes and developments are more resilient to these extremes to understand what new innovative technologies we should use in our future designs.

BUILDING EXCEPTIONAL PLACES FOR PEOPLE TO LIVE

Kidbrooke Village

Formerly a run-down estate in Greenwich, Kidbrooke Village is now a thriving community where people feel proud to belong. High quality new homes are set around 50 acres of parkland and open space, with playgrounds and landscaped gardens for everyone to enjoy. The infrastructure includes shops, schools, restaurants and cafés.

Royal Arsenal Riverside

Royal Arsenal Riverside is one of London's greatest regeneration stories, a 20-year project that has transformed a historic, but derelict, armaments site into a beautiful riverside neighbourhood with 12 acres of public parkland. Around 7,000 people now live here, in a vibrant community with its own creative district, shops, restaurants and cafés.

Woodberry Down

This former post-war council estate is now a beautiful waterside neighbourhood where 5,500 new homes are surrounded by nature, yet are just 20 minutes from the City. Alongside a wetland reserve and sailing lake, amenities include secondary and primary schools and a youth centre, as well as commercial facilities for local businesses.

We have considerable experience in transforming neglected pieces of land into thriving new communities, and Bermondsey Place is set to become the next incredible transformation.

TRANSFORMING TOMORROW

At Berkeley Group our passion and purpose is to build quality homes, strengthen communities and improve people's lives. We are innovating, pushing boundaries and taking action to ensure we have a long-term, positive impact that is good for our customers, the communities we touch, our business and the world around us.

Transforming places

Working with local people and partners we create welcoming and connected neighbourhoods where you can be proud to live.

Transforming nature

Creating beautiful places with habitats that help nature to thrive, meaning that every site is left with more nature than when we began.

We transform underused sites into exceptional places and we're also transforming the way we work; embracing technology and raising standards, as we continue to deliver an outstanding customer experience and create high-quality homes that delight our customers.

Our Vision 2030 is our ten year plan which sets out how we will achieve this.

Transforming lifestyles

Taking action on climate change and giving you ways to live more sustainably. We're building efficient homes that use less energy over their lifetime, with sustainable travel choices on the doorstep.

Transforming futures

Helping people to reach their potential through apprenticeships and training, and programmes supported by the Berkeley Foundation.

DESIGNED FOR LIFE

At Berkeley, we are committed to creating great places where people love to live, work and relax. Where the homes are light-filled, adaptable and finished to very high standards. Where carefully planned public areas enhance well-being and quality of life for residents and visitors. Where people feel a sense of community.

Customers drive all our decisions

We achieve that by putting our customers at the heart of everything we do. First, we strive to understand what our customers want and need – well-built homes, in a pleasant and safe neighbourhood, with plenty of nature, amenities and good transport connections. Then we apply that understanding to all our planning and design decisions.

And for every new development, we challenge ourselves to go further, to improve and innovate, ensuring we satisfy the real needs of our customers in inspiring and sustainable ways.

Choice and diversity

No two Berkeley customers are the same, so we aim to offer a wide choice of property location, size and type. From central London to major towns and cities; from market towns to rural villages, countryside to the coast – we build in locations our customers love. And whatever home you are looking for, whether that's a city penthouse, a modern studio apartment or traditional family home, you will find the perfect fit for your lifestyle.

Quality first to last

Quality is the defining characteristic of Berkeley developments, right down to the very last detail. We choose our locations, style of homes, construction practices, materials and specifications with great care. When you buy a new home from Berkeley you can be safe in the knowledge that it is built to high standards of design and quality, has low environmental impact and that you will receive a professional, efficient and helpful service from us. For extra peace of mind, all new properties come with a 10-year build warranty.

Green living

We are committed to creating a better environment within our developments and in the areas that surround them. That's why we build on brownfield sites whenever we can, bringing new life to disused and unloved spaces. We take care to protect the natural environment and enhance biodiversity. All our homes are designed to reduce water and energy consumption, promote recycling and enable residents to choose sustainable transport options.

Commitment to the future

When we plan a development, we take a long-term view of how the community we create can thrive in years to come. Our aim is to permanently enhance the neighbourhoods in which they are located, through intelligent design, quality landscaping, sympathetic architecture or restoration, and high standards of sustainability. We don't just build for today; we build for the future too.
